ARVS WASTE SEGREGATION SYSTEM

Waste Segregation Trolley

WASTE SEGREGATION TROLLEYS (STAINLESS STEEL)

Product Description

- One, Two, three and four compartment waste segregation system.
- Stainless steel trolley on castors.
- Foot operating system for opening of lid.
- Bins can be interchanged as and when required.
- The bins comply UN and NFX standards of safety.
- Autoclave-able and environment friendly, reusable plastic bins as per BMW colour coding.
- Available Bin Sizes 30 Ltrs & 60 Ltrs

MODEL	CAPACITY
WST 30 SS	30 Ltr.
WST 60 SS	60 Ltr.

Available in Red, Blue, Yellow, White, Green & Black colour

WASTE SEGREGATION TROLLEYS (MILD STEEL)

Product Description

- One, Two, three and four compartment waste segregation system.
- Mild Steel powder coated trolley on castors.
- Foot operating system for opening of lid.
- Bins can be interchanged as and when required.
- The bins comply UN and NFX standards of safety.
- Autoclave-able and environment friendly, reusable plastic bins as per BMW colour coding.
- Available Bin Sizes 30 Ltrs & 60 Ltrs

MODEL	CAPACITY
WST 30 MS	30 Ltr.
WST 60 MS	60 Ltr.

Available in Red, Blue, Yellow, White, Green & Black colour

ARVS WASTE SEGREGATION SYSTEM

Waste Segregation Trolley

WASTE SEGREGATION
TROLLEYS (15 P)

Product Description

- Mobile Plastic Trolley with each plastic bin capacity of 15 Ltrs.
- One, Two, Three and Four compartment trolley.
- Foot operated for hands free opening of lid.
- Leak proof and rust free.
- Bins can be interchanged as and when required.
- The compartments in the trolley are attached to each other with in-built lockable hooks, the same ensures ease of use to the end user.
- Available with & without wheels.
- Wheels optional.

MODEL	CAPACITY
WASTE SEGREGATION TROLLEYS (15 P)	15 Ltr. each bin

Available in Red, Blue, Yellow, Translucent, Green & Black colour

WST-MINI

Product Description

- Made of Durable Virgin Plastic material.
- Very useful as can be kept at patient BED Side.
- Liners can be mounted / fixed on inner bins
- With Foot pedal for hands free operation
- Each bin capacity 5 Ltr
- Available in Two, Three and Four Bins sets

MODEL	CAPACITY
WST MINI	5 Ltr. each bin

Available in Red, Blue, Yellow Green & Black colour

ARVS WASTE SEGREGATION SYSTEM

Waste Segregation Trolley

WASTE SEGREGATION TROLLEYS - ECO SERIES (STAINLESS STEEL)

Product Description

- Two, Three and Four Compartment waste segregation system.
- Frame made of stainless steel.
- Foot operating system for opening of lid.
- Bins can be interchanged as and when required.
- Available Sizes 10 Ltrs & 30 Ltrs each bin.
- Available in with/without wheels option.

MODEL	CAPACITY
WST 10 ECO	10 Ltr. each bin
WST 30 ECO	30 Ltr. each bin

Available in Red, Blue, Yellow, White, Green & Black colour

WASTE SEGREGATION TROLLEYS (STAINLESS STEEL)

Product Description

- Three and Four Compartment waste segregation system.
- Frame made of stainless steel.
- Foot operating system for opening of lid.
- Bins can be interchanged as and when required.
- Inner Bucket with handle for easy transportation.
- Compact unit, size each bin 15 Ltrs.
- Available in with Wheels and without Wheels options.

MODEL	CAPACITY
WST SS	15 Ltr. each bin

Available in Red, Blue, Yellow, White, Green & Black colour

ARVS Utility Trolley

UTILITY TROLLEY (STAINLESS STEEL)

Product Description

- Stainless Steel Trolley on Castors.
- For collection from different points.
- Foldable side wall for easy loading / unloading
- Loading capacity 400 Ltr
- Stainless Steel handle for comfortable handling by end user.
- Wheels with braking facility
- Complete stainless steel body ensures long life.
- Ergonomic design.
- Suitable for both indoor / outdoor application.

MODEL	CAPACITY
UTILITY TROLLEY SS	400 Ltr.

UTILITY TROLLEY (MILD STEEL)

Product Description

- Mild Steel Trolley on Castors.
- For collection from different points.
- Loading capacity 400 Ltr
- Mild Steel handle for comfortable handling by end user.
- Wheels with braking facility
- Complete mild steel body ensures long life.
- Ergonomic design.
- Suitable for both indoor / outdoor application.

MODEL	CAPACITY

Waste Bins With/Without Foot Pedal & Wheels

WB-30 & WB-60

Product Description

- Washable / Autoclavable
- Lateral and central handles tested for twice the max weight.
- Solidity & resistance against shock at both low and high temp.
- High Penetration resistance.
- The bins comply UN and NFX standards of safety.

MODEL	CAPACITY
WB 30	30 Ltr.
WB 60	60 Ltr.

Available in Red, Blue, Yellow, Green & Black colour

OPEN BIN / SWING BIN (PLASTIC)

Product Description

- Made up of eco-friendly plastic material.
- Color coding options available.
- Stable Design.
- Open Bins are deal for areas with lesser waste load.
- The swing lid is fixed with the main lid in such a way that the main lid can be opened at any time for unloading the waste.

MODEL	CAPACITY
OPEN BIN	10 Ltr.
SWING BIN	10 Ltr.

Available in Red, Blue, Yellow, Green & Black colour

WB-120

Product Description

- Suitable for Indoor / Outdoor collection of Waste
- Made of HDPE
- Foot Pedal for hands free opening & closing of lid.
- Wheels & Handle for easy movement of waste bin
- Shock & Penetration resistant
- Easy segregation of waste through color coding.
- Washable and UV resistant.

MODEL	CAPACITY
WB 120	120 Ltr.

Available in Red, Blue, Yellow, Green & Black colour

BIOMEDICAL LIQUID WASTE TREATMENT SYSTEM

HYPOMIX35

MANUAL BIO MEDICAL LIQUID WASTE TREATMENT SYSTEM

Product Description

- Infectious Liquid Medical Waste Treatment System
- Manual Functioning
- Capacity 35 Litres
- Options to treat different levels of liquid waste using combination of 10% Sodium Hypochlorite Solution and UV Sterilisation
- Body and Tanks Made up of Heavy Duty, Highly Durable & Rust Free Plastic
- Inbuilt Washing Bay
- Level Indicators for Liquid Waste and Sodium HypoChlorite Solution
- Treatment of infectious liquid medical waste in compliance to CPCB Guidelines

Maintenance Free

**User Manual Supplied
in 2 languages**

**2 IN 1
Treatment**

**2 in 1 Treatment with
NaClO and UV Sterilisation**

Compact Equipment

MODEL

HYPOMIX35 - 35 LITER MANUAL

CAPACITY

35 Ltr.

The Equipment treats and disposes of hospital liquid waste as per Biomedical Waste Management Rules 2016 and CPCB Guidelines, Govt. of India.

BIOMEDICAL LIQUID WASTE TREATMENT SYSTEM

Hypogermished Automatic System

AUTOMATIC BIO MEDICAL LIQUID WASTE TREATMENT SYSTEM

Product Description

- Fully Automatic Liquid Waste Treatment System with manual operating mode.
- Continuous treatment cycle to ensure uninterrupted working with an option to treat any level of liquid waste manually.
- PLC based touch screen LCD display to operate equipment.
- Functions like starting the cycle, dispensing sodium hypochlorite solution, drainage etc. are automatically performed by the equipment.
- Data logging using USB 2.0.
- The equipment gives print ticket with cycle data for record keeping.
- User login is protected by a pass code.
- pH Level monitoring.
- Audio visual alarms for low / full levels of hypochlorite solution, full level for treatment and storage tanks.
- Tested for efficacy by Shriram Institute for Industrial Research, New Delhi with 99.99% efficacy.

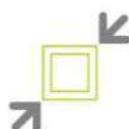

Regular Maintenance Visit

End User Training

Installation Done by Trained Professionals
